First United Methodist Church

Waynesville, North Carolina

Completed 1999

This project is located in the Blue Ridge mountains in Western North Carolina and involved the rebuilding of the existing 1920s church building which was destroyed in a fire.

The semi-circular seating arrangement accommodates contemporary collective worship and the flexible chancel and choir areas allow for a variety of uses while maintaining a dignified worship setting. As the church's design consultant for this contemporary facility, Terry Byrd Eason Design was responsible for design of all chancel furnishings as well as providing lighting design services, and consultation on the building's overall design and interior arrangement.

Architect: Atkin, Olshin, Lawson-Bell & Associates
